

Okocim O.K. Beer

Poland

Okocim O.K. Beer is rated as Highly Recommended by The Beverage Testing Institute and was awarded a Silver Medal in the World Beer Championships.

Okocim O.K. Beer is the first variety of Okocim ever brought into the USA. Since then several other varieties have become widely known. In 1999, the brewery decided to bring back this handcrafted recipe for the new Millennium. The Okocim O.K. Beer label remains mostly unchanged from its original design from nearly 40 years ago, which is a testimony to the spirit of this brewery and their vision. The beer itself helped define "the Polish pils style" which in turn separated Polish brewing aside from the many other beers of Europe.

Okocim O.K. Beer has a deep golden yellow hue and pours with a creamy white head. Spicy, markedly hop influenced aromas lend to its rich and rounded flavor. A medium bodied palate and snappy bitter hop finish make this a very stylish and distinctive style of pilsner.

ABV = 6.2%
