

The Formulas of Horizon

by Frater Hardkiss

This version is an abridged version for the Album, Prophecy of the Stones by Freesia. The full version of the formulas will be included in the Lamion Goeticon once it finished.

Partial Intro:

The desire to bring down the eccentricities of High Magick and of the mysteries behind the veil into ordinary language is no easy feat. The result of which is always interpreted by the common man inappropriately and causes more trouble than not.

The Atu must be viewed & used with both wisdom and understanding to be properly established. The Formulas of Horizon or *Enochian Resolution Complex's* represent the spanning forth of the psychocosm of the Word of Horizon to extend the nature of Lamion to the worlds from which the tree is distilled. Each complex is a phase transition and alignment of the incarnated word towards ascension. The over-turning of Hrumachis is the abnegation of the Great-Work⁰.

The First Formula of HORIZON is [Not Included].

The Second Formula of HORIZON [Not Included].

The Third Formula of HORIZON is given by the 6 permutations of the last three letters: “Z”, “O”, “N”¹. These ciphers of **HORIZON** represent catalysts for the manipulation of Reality (*Ceph*²) by the processes of Alchemy (*Med*³) and the transmutation of Qliphoth (*Drux*⁴) of the inherent dream. The formulas are triggered by intense study⁵ intermingled with *an intonation of the appropriate force*⁶ by the arisen king. The Atu are to be first triggered in sequence before they can be used separately, as one is initiated into each method.

	<u>World Without</u>	<u>Governance</u>	<u>World Within</u>	<u>Governance</u>
<u>Above</u>	1 - NOZ	Jupiter (j ⁺)	2 - ZON	Saturn (t ⁻)
<u>Horizon</u>	3 _b - OZN	Excalibur/ Shu	3 _a - NZO	Hadit/ Sekhmet
<u>Below</u>	4 - ZNO	Koth (t ⁺)	5 - ONZ	Obsidian Scorpion (j ⁻)

The path follows the *winding way of the serpent*. The worlds being reflections of one another or permutations. The world Without-Above expands while the world Within-Above contracts. The world Without-Below contracts while the world Within-Below expands. The contact points of ascension are the Horizon **NZO - OZN^A** which appears as **OZN - NZO^B**.

NOZ/ ZON affects the outward life in the kingdom under the aegis of Libra.

- The complex of **NOZ** extends the spiritual Horizon and aspiration in Malkuth, spanning forth like a cloud.
- The complex **ZON** condenses the above aspiration to an area of effect internally; seizing of the above expansion with dignity and self love.

NZO/ OZN affect the inner will of the aspirant towards it's nature in the kingdom under the aegis of Leo.

- The complex of **NZO** works upon the will of the Horizon within. The Horizon within contracts on 'just what is' thee nature. The impetus is sex, the result is balance.
- The complex of **OZN** is the expansion of the inward point to the Horizon pushing the world without ^C.

ZNO/ ONZ affect the deep rooted atavistic underworld of the aspirant towards ascension to Lamion ^D.

- ZNO is ruled by Scorpio and brings the dream sequence (reality) into alignment. The 8 spoke wheel of Koth aligns the aspects of the deep under the guises of the Cthonic mythology ^E.
- ONZ is the formula of the Obsidian Scorpion; the destruction of the chalice of Babalon and the renunciation of the Great Work for a new formula of completion ^F. The work of Balance/ Med/ Libra is filtered through the province of Poison/ Drux/ Scorpio, to the enraged Were-lion/ Ceph/ Leo. ONZ is the nested egg of Lam spanning forth to every other paradigm in AL-LA towards a tumultuous space ^G.

The images given are of the formulating Atu of the Aeon of IR. The songs noted are the sonic Qabalah associated with the Scarlet-brother/ Scarlet Gash.

The Expansion of the Cloud

Atu: NOZ

Mantra: “*Drux-Med-Ceph*”

Governance: Jupiter

Description: A **Without-Above** formula balancing the arisen phoenix to the assumption of leadership. This is also the formula of the *Rising Phoenix*.

Image: A phoenix exploding upwards from the horizon; a cloud expanding.

Freesia Song: Expansion⁷, Explosion⁸, Compulsion⁸.

Vision: An Explosion.

Initiation: The Formulation of **NOZ** has its fulcrum in **Med**, which remains fixed and hence manifests on the plane of change. The formula is of the *expansion of Jupiter walking backwards*⁹. Vast changes in the physical structure of ones universe ensue.

The Contraction of the Cloud

Atu: ZON

Mantra: “*Ceph-Med-Drux*”

Governance: Saturn

Description: A **Within-Above** formula equilibrating the descending phoenix to the underworld; the condensation within.

Image: A cloud condensing; a phoenix plunging into an ocean.

Freesia Song: Jabba⁸, Gardula⁸

Vision: Crystallization.

Initiation: The complement **NOZ; ZON** distills the expanded cloud into concrete objects. This chilling of the heated quintessence is a necessary factor which prevents the streaking comet from burning too much of itself away with the added acceleration. The contraction of Saturn bringing about concrecence.

The Worlds of Horizon

These two formulas are inherent brothers which cannot be separated for they are reflections of the Horizon¹⁰. These are the interwoven forces of the Great Dragon¹¹; central forces revolving around **Ceph** interchanging the transmutation of quliphoth¹² and alchemy. The culmination of these formulas is the immanence of the lightning flash¹³.

The Leonine Way of Hadit

Atu: NZO

Mantra: “*Drux-Ceph-Med*”

Description: The formulation of the **Horizon-Within** of the ascended king.

Image: A lions head just above the Horizon encased in flame.

Freesia Song: Yes, Horizon⁸, Eratik Aeon⁸.

Vision: Of the Mystery of PAN¹⁴

Initiation: This is a formula of curbed fires under the governance of Sekhmet resulting in balance. The Horizon-within is the limit of the individuals governance via Malkuth¹⁵. The impetus is a dominant psycho-sexual permeation.

The Drawing of Excalibur

Atu: OZN

Mantra: “*Med-Ceph-Drux*”

Description: Decent into the **Horizon-Without**¹⁶

Image: A sword plunging into a setting/ rising sun¹⁷ with a drop of blood spilling off it and a Δ on the left, a ∇ on the right.

Freesia Song: Yes, Horizon⁸, Eratik Aeon⁸.

Vision: The transfiguration of Christ¹⁸.

Initiation: The drawing of Excalibur by the king to the decent into the world of shells. The explosion of the phoenix descending sends the king into the outward horizon. The distillation of Shu and the condensation of pearls formulate the garland of roses and lily's¹⁹.

The Formula of Koth [The Worlds Without-Below]

Atu: ZNO

Mantra: “*Ceph-Drux-Med*”

Description: A subconscious formula towards reification of the dream of will and transformation of the inherent nightmare affecting the worlds **Without-Below**.

Image: A high tower atop a the back of a giant turtle against a twilight sky and shadow-light coming from behind.

Freesia Song: The formula of Koth⁸, dark tower⁸.

Vision: A dark tower against a twilight sky.

Initiation: The fourth Atu denotes the plunged phoenix into the realm of dream and brings forth the very underworld of the master via the light of the dark sun. The dream is brought into alignment by the ciphers of the 8-rayed wheel of Koth^{20a}. The fixing factor revolves around the quliphoth^{20b} and birthed through hypo-gnostic emergence. The construction of the tower of dreams is a self-testament in the face of nothing; the cavernous maw of the turtle upon which the universe rests.

The Formula of the Obsidian Scorpion [The Worlds Within-Below]

Atu: ONZ

Mantra: “*Med - Drux - Ceph*”

Description: This formula is poisonous and involves filtration’s^{21a} of past atavisms for optimal use affecting the worlds **Within-Below**.

Image: An Obsidian Scorpion

Freesia Song: Invidian⁸, Firesnake⁸

Vision: The shattering of the Chalice of Babalon. The Orange Arch.

Initiation: This fifth Enochian resolution complex is a sensual inversion which completes the transformation of matter. The final tunnel spanning forth^{21b} is finally surpassed and access to the continuum of infinite light allows for the leap of the master towards total refraction in the Great Work²². The fifth complex is the *Mystery of Pan itself* as such peace must be abrogated in the total dissolution of sensuality; the shattering of the Chalice of Babalon; the cacophonous silence of the passage through the orange arch of Hermes; the cloud descending like a heavenly chariot²³.

Notes

A - Encased in light.

B - Sunrise/ Sunset - a trapped scorpion

C - This can be viewed as a circuit 2 endeavor. The scorpion defends it's lair.

D - Initiated consciousness *existing of thee infinite light*.

E - Yog-Sothoth, Kadath, Hastur, Nyarlothotep, Cthulhu, Tsathogua, Shub-Niggurath, Azathoth.

F - That of the Scarlet-brother. The Scarlet-Gash being the vehicle on earth.

G - This complex also represents the mastery of the madness of God, itself. The way itself is the teacher and everything becomes balanced by inversion. The nature of god is transcended by the heart of the poet.

0 - In the higher initiations one must even forsake the path itself. The absence of magick renews the birth of innocence. The throne of the solitary chaos-star is as hollow as unification itself. Where is the innocence of the magus?

1 - Three Enochian keys. This is the appropriate representation, previously given ZOM by Therion.

2 - C = "Ceph" [The Roaring Maw of Creation] Leo = Teth = Serpent = Strength/ Lust: This Atu is a *fixed* universal principal adapting itself to each individual as everyone must find their own strength; Simhanada/ 'Lion Roar'. **Equation: Selflessness = Self [Tathagata/ 'Thus-Come One']**

3 - O = "Med" [The Inverted Feather] Libra = Lamech = Goad = Justice/ Law: This Atu is a *cardinal* universal principal never observed entirely; Virya/ 'bodhisattva energy-willpower'.
Equation: Sorrow = Joy [Prajnaparamita/ 'Perfection of Wisdom']

4 - N = "DruX" [The Flaming Waters of Sexual Ecstasy] Scorpion/ Eagle/ Phoenix = Nun = Fish/ Sea Monster = Death/ Change: This Atu being the Song of Dhyani Buddha Vairochana/ 'He who is Like the Sun'; transformations of skandhas/ 'transitory elements of the personality/ shell'.
Equation: Change = Stability [Varjasattva/ 'Diamond Being']

5 - Gematria/ related study will provide necessary insights depending upon ones initiation.

6 - The traditional Enochian calls have proven sufficient for this purpose with the appropriate key supplanted, with a tetra-polar resonance.

7 - Original Mix on Freesia's debut "*Purple Horizon*".

8 - Remix & Original Mix on Freesia's second release "*Prophecy of the Stones*".

9 - The qliphotic structure of creation is stimulated and explodes outward; Will brings about formulations in thought; Reality bends around one.

10 - Non-existent.

11 - Ob.

12 - The substrate.

13 - Adding an outer-shell of fine gold to the congealed cloud.

14 - Pan is in Chaos - Thanks to Mika in Portland; Nerodha - Samapatti; Kind of funny actually when dealing with the sublime nature of mysteries, which do not allow themselves to be spoken of. Even if it were possible the speaking of them sounds like madness or drivel. Although all drivel & madness are not mysteries.

15 - I - Leo.

16 - Olam ha-Qlippoth (OVL M H QLYPTh): The world of shells 777.

17 - The sign of Libra L .

18 - The shell becoming aware that the logo had impetus towards the shells sacrifice and it's transfiguration into a shining one: pure light. This recognition was the experience the shell *needed* to become a clear crystalline refraction allowing its movement across the eternal face [insert pix/ greenlog]

19 - The siddha here.

20a - **The Monasticism of Koth:** The sigil for each respective spoke is to be obtained by the automated process of Zos - Kia. The sigil obtained is to be illustrated upon the canvas of flesh, in the appropriate region. The nature of the entity to be evoked is breathed in, then stopped short (representing the twilight state between life and death). An echopism of focus is then obtained upon the sigil as the mantle of the influence descends. There are 8 sigils and three or more days each should be given for each force, so this will take a minimum of a 24 day monasticism.

20b - The Qlippoth are redeemed by this formula.

21a - The filtering of the atavisms was initially thought to be representative of titanic forces, such as dinosaurs, but it seems they are very similar (although not exactly) to the Qlippoth. They are life that has failed, both of the past and that in pre-embryonic stages. The 3 Mothers possess those atavisms at a higher wavelength (and the respective means of induction) while the 7 Devils and 12 Singles gain in density.

21b - Azapheme

22 - The mapping used here is the sacred alphabet built up to the cube of space from the inside out. The key to this lies in the proper structure of three mothers. See *Book of Wild'Ng* by Julian.

23 - The Rainbow Arch is the next passage of the skipping comet. The power of Tetragrammaton is wielded above the double-wand.
