Note on Preparing

to get the pdf quickly, right-click in schedule area and select all next, right click selected area and choose print Cute PDF to the My Receipts folder. Then get all new PDFs together and drag and drop to your final PaperPort Collection folder for stacking. Put all the PDFs together by stacking in Paperport. Note: the pages stack in reverse order.

Or if you already copy/pasted to another document (Xcel or Word) you can follow the document to PDF by printing with CutePDF

Again CutePDF is preferred for generating each PDF before Stacking, because of its feature of embedding the text along with the pictures.
