

~Carolina Crossroads~

Part 6!

And So It Comes Together! Block 1!

64 blue/neutral 9 patches and 64 red/neutral hourglass blocks and 16 3.5" blue center squares make 16 ohio star variation blocks with 9 patch corners!

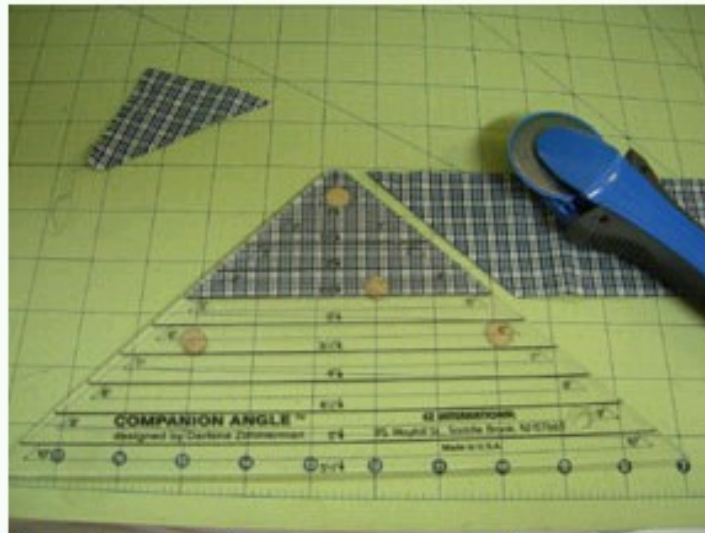

Lay out block units as shown. Sew units into rows, and sew rows together to complete each ohio star block!

16 Half-Star blocks!

For each of the 16 Half Star blocks you will need:

2 hour glass blocks (and a partridge in a pear tree!)

You can cut your setting triangles with the companion angle ruler and a 2.5" strip, aligning the 2.5" line on the ruler with the bottom of the strip. Cut 16 setting triangles.

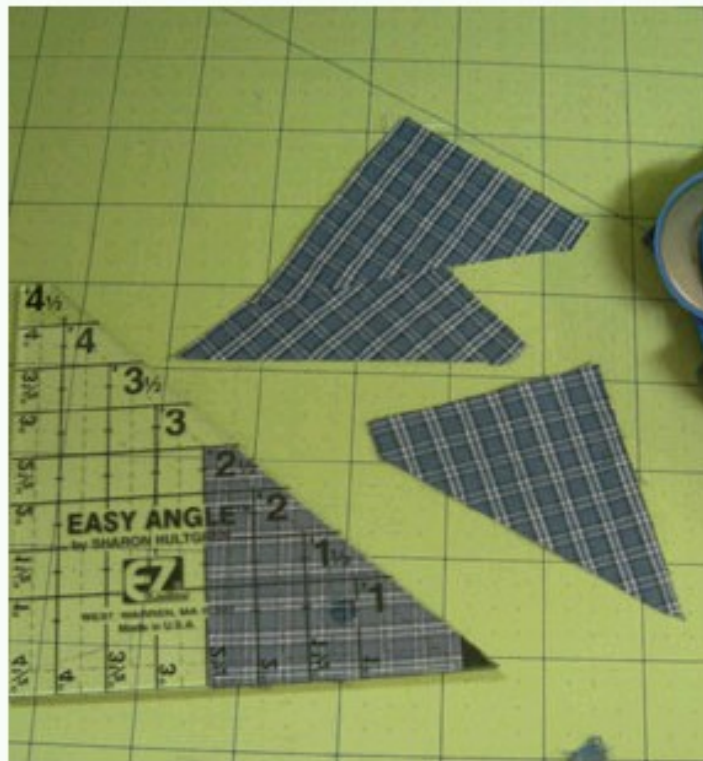

Or, you can cut (4) 6 1/4" squares, cutting each square with an X to yield 4 setting triangles per square. Align pieces as shown. Sew into rows across, and join rows to form 16 Half Star blocks!

Four Quarter Star Blocks!

For each of the 4 Quarter-square blocks you will need:

You can cut your half square triangles from a 2.5" strip using the easy angle ruler as shown. Or you can cut them the traditional way by cutting (2) 2 7/8" squares on the diagonal to yield 4 corner triangles.
