

# PICTORIAL STANDARD

## HEAD and SKULL

Wedge shaped when seen from above

**STOP** – Well defined when viewed from the side

**MOUTH:** Scissor bite, lips black

## EARS

Dark, small, ivy leaf in shape, of velvety texture and well set on head.

## EYES

Almond shaped, dark, of medium size and obliquely set. Well defined spectacles

## NECK

Moderately long and arched

## BODY

Short, compact, with length of leg giving a square outline

### Ribs

Well sprung with a good depth of brisket

## RUFF

Large profuse coat, cream in colour, which frames the head

## TAIL

Moderately long, high set, tightly curled over back, double curl highly desirable

## SHOULDERS

Well sloped. The angle of the scapula being approximately 45 degrees to the vertical

## HOCK JOINT

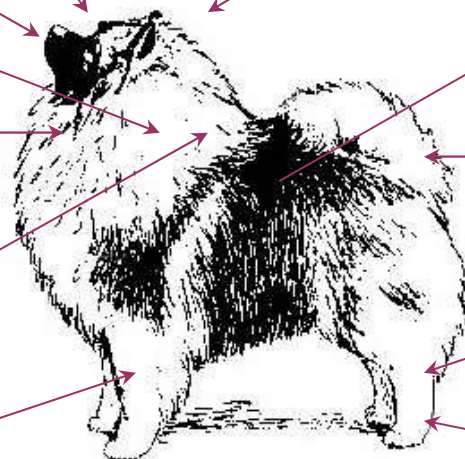

Showing slight angulation to the foot when viewed from the side

## LEGS

Good bone

## FEET

Well padded, round, catlike with black nails. Pencilling around toes acceptable

## COAT

Harsh, off standing, straight. Dense ruff, well feathered on forelegs and profuse trowsers, not feathered below hock. Soft, thick, light-coloured (not tawny) undercoat. Never silky, wavy or woolly, not forming a parting on the back.

## SIZE

Dogs: 18 inches  
(45.7 cm)

Bitches: 17 Inches  
(43.2 cm)

## COLOUR

A mixture of grey and black. Undercoat very pale grey or cream (not tawny). All shades of grey acceptable, body hairs black tipped. Shoulder markings well defined and all markings definite. Forelegs and hocks cream with no black below wrist or hock. Pencilling acceptable around toes
