

Barriers

Barriers

For strong, highly visible security

A range of strong and secure barriers with high visibility and presence. Built in the UK for quality and durability, Blick Alfia barriers are suitable for applications from town centre car parks to large industrial sites, docks and airports.

The LCB Car Park Barrier

Our standard car park barrier suits most layouts, with a boom up to 3m long. Designed to be low cost and low maintenance, its mechanical drive means there are no complex braking systems. The LCB barrier can be used with the Blick Alfia range.

Features:

- Rise time approximately 3 seconds
- 240V 50Hz single phase 0.37kW motor
- Robust and weather-resistant 2mm steel zinc passivated and powder coated case
- 3m aluminium boom
- Articulated arm option accommodating low roof space
- Quick release arm for easy removal

The HLB and HBB Industrial Barrier

A substantial industrial barrier with a powerful heavy duty hydraulic pack, the HLB is suitable for openings up to 6m, while the HBB is suitable for openings up to 9m. It can be interfaced with pass card units, coin machines and remote facilities. The rise and lower times are adjustable with varying speeds to suit the location.

Features:

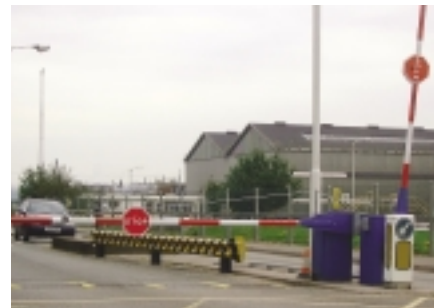

- Rise time adjustable between 4 - 8 seconds (dependant on size of boom)
- 240V 50Hz single phase 0.37kW motor
- 1.2cc/min hydraulic pack
- 3mm steel shot blasted, hot zinc sprayed and powder coated
- HLB – up to 6m aluminium boom without skirt, 5.5m with skirt
- HBB – up to 9m aluminium boom with skirt
- Options include:
 - Skirts
 - Lights
 - Stop signs
 - Key switch override

The HRB Rising Step

The HRB is one of the most secure barriers available today and is particularly suited to situations where rising arm barriers are vulnerable to vandalism or misuse. The step height can be adjusted to meet your specific on-site requirements, with control by ticket issue machine, coin machine, pass card, fully automatic or push button systems. The hydraulic pack and control circuitry are housed in a remote cabinet which can be up to 7m away.

Features:

- Rise and lower times adjustable
- 240V 50Hz 5A motor
- Standard height 300mm
- Standard width 2 metres
- Made from 12mm steel
- Red/Green traffic lights fitted as standard
