AudioPlayer Skin for the Sony CLIE PEG-N710C , PEG-N760C, and anything else I forgot to mention.

Support?

Installing a skin on your handheld should be easy. Yet if this has you completely baffled, you can email me: dizzynoise@mac.com

Modification?

You're welcome to modify this and re-distribute it, but just say you modified it.
(or , start from one of the SONY skins, as is done with all of my/our skins)

Want More Skins?

Check Palmgear for new releases! Other skins available:
