January 14th 1999

TO WHOM IT MAY CONCERN

This is to certify that PGESCO employed Ahmed El Attar, in the capacity of Computer Engineer from the period August 2nd 1997 until January 21st 1999.

His duties comprised of IS/T tasks, such as systems and network maintenance, installation of new computer systems and troubleshooting daily problems at the Cairo Office or our sites at Ayoun Moussa and Sidi Krir.

In addition to his basic tasks, Ahmed designed and created an Internet as well as Intranet website. The creation of the Intranet has facilitated work for many people by introducing an advanced administration system. The Intranet was regularly updated. Ahmed also designed and created the company brochure as well as publishing a company newsletter. He succeeded in creating an advertisement for the company in a magazine.

Ahmed's background in video and audio editing allowed him to produce a promotional video about electrical energy in Egypt.

In order to facilitate the communication process especially between our sites, Ahmed set up and installed a computer network at Ayoun Moussa. He also provided employees with an Email system, internal as well as external.

For the past 2 months, he was involved in setting up and preparing 20 obsolete computers for sale.

During his tenure with the company, Ahmed has shown a great deal of enthusiasm towards his work as well as his fellow colleagues. He has a lot of initiative, which was obvious in all the projects he worked on. He performed his tasks on time and aided by his good communication skills he proved very popular among his peers.

I therefore take this opportunity to wish him luck in his future endeavors.

Yours truly

Yasser Amer

Human Resources Manager

ZEUGNIS

zum Architektenpraktikum

Herr Ahmed Mohamed El Attar absolvierte in unserem Unternehmen in der Zeit vom 09.08.1994 bis 05.10.1994 ein Architektenpraktikum.

In diesem Zeitraum konnte er unmittelbar in die Bearbeitung aktueller Planungsaufgaben einbezogen werden.

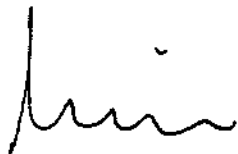

Innerhalb erster Studien für ein neues Nationalplanetarium "Kuweit City" hat er an der Erarbeitung einer Konzeption für den repräsentativen Eingangs- und Außenbereich mitgewirkt.

Herr El Attars sehr guten Kenntnisse der CAD-Technik machten es möglich, daß er in der Zusammenarbeit mit erfahrenen Architekten unseres Hauses Entwurfs- und Ausführungspläne für einen großen Industrie- und Gewerbepark (Saalepark Jena) mittels dieser Technik bearbeitet hat. Dabei war die Kommunikation mit Spezialisten unseres Unternehmens hervorragend.

Wir können Herrn El Attar eine sehr engagierte Arbeitseinstellung bescheinigen. Sein Verhalten gegenüber Vorgesetzten und Mitarbeitern war stets zuvorkommend und hilfsbereit. Er hat sich problemlos in sein Arbeitsteam eingefügt.

Wir wünschen Herrn Ahmed Mohamed El Attar auf seinem künftigen Berufs- und Lebensweg alles Gute und viel Erfolg.

Jena, den 05.10.1994

Dr. Willi Wille
Geschäftsführer
