SUMMARY

Nine years of professional project leadership, systems design and development experience in business and manufacturing environments.

RESUME' OF EXPERIENCE

Parkedale (King) Pharmaceuticals December 1998-Present

January 2001 to Present	Project Leader Lead implementation of new, Corporate wide Document Management System using Documentum 4i DCM (DocControl Manager), HP-UX UNIX operating system, iPlanet HTTP server, and Oracle RDBMS to support business process automation, workflow, and compliance with regulatory agencies as well as internal and external customers. Responsible for selection of hardware and software. Manage performance of vendors. Participate in the development, execution, and review of Validation protocols. Creation, maintenance, and support of related SOPs. Project planning and Budgeting. System security. Change control management. Familiar with cGMPs and 21 CFR Part11.
-------------------------	---

December 1998 to Present	System Administrator Responsible for continued operations of Parkedale Division's Document Management System. Consisting of Documentum EDMS 98, Oracle RDBMS, and HP-UX. Creation, maintenance, and support of related SOPs. System security. Change control management. Maintenance and troubleshooting of all aspects of the system. Provide support for end users.
--------------------------	--

BRT Inc. May 1993-December 1998

March 1997 to December 1998	Project Technical Manager Lead project team on a document management system using Documentum for a 750 seat customer service call center for Ford Marketing Sales and Service Division. Lead design and implementation. Application customization using QuickBuilder/DocBasic, DQL, HTML, JavaScript, Workspace and Server APIs to support WorkSpace and RightSite web interfaces, automate document loading, business processes and workflow. Docbase Administration. Project presented Owner Relations Operations (ORO) award for excellence.
-----------------------------	--

September 1996 to December 1996	Consultant Provided technical expertise for IBM/ISSC systems integration. Mentored application developers on the Documentum product. Application customizations using QuickBuilder/Docbasic, DQL, Workspace and Server APIs.
March 1996 to February 1997	Project Leader Designed and implemented a document management system using Documentum to support ISO-9000 requirements for a Ford plastics facility. Installed Documentum and Oracle systems and configured system Docbase per application design. Application customizations using QuickBuilder/DocBasic, DQL, HTML, Workspace and Server APIs to automate document workflow and business procedures. Docbase Administration.
February 1995 to March 1996	Project Leader. Designed and implemented a production monitoring/control, SPC and data acquisition system for a Ford plastics facility.
January 1994 to May 1995	Controls Engineer Analyst. Designed and developed software to interface computers to plant floor devices for Ford FLAPP team. Participated in the development of cross-divisional Controls Engineering standards. Participated in the design of Computer Integrated Manufacturing systems
December 1993 to February 1995	Project Lead Programmer/Analyst. Designed and implemented a production monitoring/control, SPC and data acquisition system for a large-scale automated painting operation for a Ford plastics injection molding facility.
May 1993 to December 1993	Staff Programmer/Analyst. Implemented a production monitoring/control and SPC system for a Ford glass manufacturing facility.

APPLICATIONS & SPECIALIZATIONS

Areas of specialization include Content Management, UNIX System Administration and Programming, Controls Engineering, and Manufacturing Systems.

HARDWARE PLATFORMS

Hewlett Packard 9000	Sun Spare
IBM RS/6000	Intel-based microcomputers
Allen-Bradley PLC/5-XX, Pyramid Integrator	MODICON X-84

SOFTWARE/OPERATING SYSTEMS

AIX	HP-UX	MS-DOS	MS-Windows 3.1, 9X, NT, 2000
SOLARIS	ORACLE	Documentum Acrobat	FactoryLink

LANGUAGES

HTML	DQL	C	SQL
FORTTRAN	JavaScript	UNIX Shell Programming	

NETWORKS

TCP/IP	A-B DataHighway, +	MODBUS, +
--------	--------------------	-----------

EDUCATION

Bachelor of Science - Engineering, Electrical Engineering	1991
University of Michigan, Dearborn	
Graduate Studies in Electrical Engineering	1992
Wayne State University	

PROFESSIONAL TRAINING AND CERTIFICATIONS

- HP Certified HP-UX System Administrator
- HP System and Network Administration I, II
- Documentum System Administration
- Documentum Application Development
- Oracle Database Administration
